OSCAR NEEBE

Permitted to View the Remains of His Dead Wife.

He Breaks Down Completely and Falls in a Stupor.

CHICAGO, March 9.—For the first time in half a year, since he was pronounced guilty, Oscar Neebe, the Anarchist, left the jail. At the request of himself and his friends, Neebe was this afternoon taken from the county jail to the home of his brother, on Sedgwick street, that he might look once more on the features of his wife, who died day before yesterday. Neebe was taken from his cell by Jailer Folse. He looked stouter than ever, but very pale. His clothing was shabby, his overcoat seedy, and his once jaunty slouch hat covered with dust. He was smoking a cigar. Deputy Sheriff Spears and the brothers hurried out, stepped into the carriage in the alley and were driven rapidly out. Neebe and the deputy stepped into the death chamber unheralded. As Neebe's glance alighted on the coffin of his wife he broke down completely and fell to the floor, big drops of tears rolling down his deathly pale face. "Meta! Meta!" he exclaimed repeatedly addressing himself to his wife. The prisoner remained at the coffin, and for twenty minutes seemed in a torpor. Slowly his eyes began to move around. He recognized his friends, embraced his father, kissed his children, and finally with the words, "I guess we better go," directed to the officer, left the room and soon afterward was conducted back to the jail. The funeral of Mrs. Neebe has been set for 12:30 Sunday afternoon. The ceremonies will be held in Muller's Hall, a Socialist resort. Dr. Ernst Schmidt will probably deliver an address. All the labor organizations represented in the Central Labor Union (Socialistic) will march to the hall, and from there a procession will follow the body to Graceland, where it is to be interred. A number of singing associations and secret-society lodges have signified their intention to participate. Ferdinand Spies and Conrad Neebe called on Mayor Harrison this evening and asked for a permit for Mrs. Neebe's funeral. They were informed none was needed. The two then stated that undoubtedly there would be bands of music and a large procession. Therefore legal authorities were wanted to carry out arrangements without molestation. The mayor replied that, while he would advise a quiet ceremony, they would not be interfered with so long as they kept within the bounds of law. The police captains of the city will tomorrow hold a conference to consider what arrangements on their part are necessary.

GOT THEIR "SUGAR."

Boston Capitalists Swindled by a Slick Philadelphian.

BOSTON, March 9.—William C. Hickman, originally of Philadelphia, but lately of Boston, has joined the American colony in Canada, after having, it is alleged, swindled a number of Boston capitalists out of between \$30,000 and \$50,000. Hickman claimed to have a formula for manufacturing an article that he called "Sugarine" out of common starch. The sugarine was to take the place of ordinary sugar, to which it was equal in all respects. According to Hickman's story, the sugarine could be made for one and one-half cents per pound, and sold readily for five and one-half cents. Several capitalists became interested, and furnished considerable sums of money which, it is said, Hickman perverted to his own use. When he could no longer blindfold his dupes, he left the city for Montreal, where he now is. He makes no secret of his whereabouts. Hickman is said to be very well connected in Philadelphia.

Horrible Torture.

CITY OF MEXICO, March 9.—Recently, near Leon, three brothers named Marquez accused an old man named Juan Hurtado, of stealing some jackasses. Coming on him on the road, they seized him and beat him in a barbarous manner to secure a confession. Refusing to confess, they stripped him naked, tied him to a tree, and stuck his body full of huasache thorns. They then hung him up by the fingers until they pulled his nails off, burned his feet and otherwise horribly mutilated him, and then as he still persisted in innocence they took him to the political chief of Acordada, who shot him dead. Superior authorities became informed of the matter and the whole of the band, who fled to the woods, are being hunted down.

Mrs. Parsons in a Cell.

COLUMBUS, O., March 9.—Mrs. Lucy Parsons, wife of the convicted Chicago Anarchist, was refused permission to lecture in this city by Mayor Walcutt. Mrs. Parsons became wrathful and went to the mayor's office and upbraided the official in an excited manner, calling him a scoundrel and other pet names. The irate woman was then ordered under arrest. She resisted, and it was as much as two officers could do to place her in jail. The charge is disorderly conduct.

LONDON, March 9.—The Times publishes a dispatch from Vienna positively affirming that the alliance between Italy, Germany and Austria has been renewed, but for three instead of five years.

Child Accidentally Burned.

A BARREL MYSTERY.

Shipped from New York for New Brunswick, and When Opened Discloses a Woman's Remains.

BOSTON, March 10.—A barrel upon which there were heavy charges was received by the Adams Express Company to-day from New York via the New York and New England railroad, for delivery to the American Express Company, to be forwarded to parties in New Brunswick. The American Express Company refused to receive the barrel, on account of certain suspicious marks resembling blood stains upon its side, whereupon the Adams Express Company took it back to their main office. Here the barrel was opened, when the head of a woman was discovered packed in straw. Enough was seen to convince the officials that the barrel contained other portions of a human body. The head was replaced and the barrel with its contents removed to an undertaker's, where an examination will be made in the morning. Those who are cognizant of the facts believe that the body was intended for some medical college.

WEATHER OR NO.

A Plan for the Newspapers to Help Out the Signal Service.

ST. LOUIS, March 10.—The Globe-Democrat says editorially to-day: "If the Signal Service is actually crippled by the failure of Congress to pass the deficiency bill, the newspapers of the country, acting through the Associated Press, or acting outside of that organization, should make up the amount actually needed to carry on the work until Congress meets. The year promises to be one of extraordinary meteorological events and changes, and the newspapers should not let their readers suffer because Congress failed to do its duty. The chief Signal Service item in the neglected bill is \$18,000 for 'observations and reports of storms.' This is not a large sum for all the newspapers in the country to pay for information which is of very great interest."

Fraternal North and South.

CHARLESTON, S. C., March 10.—John Brown, Jr., son of John Brown, of Harper's Ferry notoriety, has written a letter to Major Henry E. Young warmly approving of the disposition made of his recent contribution to the earthquake fund. Mr. Brown's money was turned over to the Confederate Home. He says that when the non-combatants of the war have passed away there will be but little left of the "bloody chasm," and that the men who fought each other can now fully comprehend the meaning of the word fraternity.

Melting Trade Dollars.

NEW YORK, March 10.—The process of melting up the trade dollars was begun yesterday at the Assay Office. The first \$100,000 worth received at the Sub-Treasury having been counted, weighed and examined, was turned over to that institution yesterday and placed in the hands of the melters. It is expected that each day a like amount will be sent to the Assay Office from the Sub-Treasury, so as to make room for the reception of a portion of the large sums already offered for redemption. The amount now registered at the Sub-Treasury for redemption aggregates nearly \$5,000,000.

Blown Up by Natural Gas.

PITTSBURGH, Pa., March 10.—Four men in the employ of Mayor Wyman, of Allegheny, were engaged in cleaning a vault on the premises of John Holmes, on Green street. One of the men, John Myers, had a lighted torch in his hand, with which he stooped over the vault. A terrific explosion followed instantly, which hurled him quite a distance, and enveloped him in flames and set fire to the building. It is thought he can not recover. The vault had become filled with natural gas, which had leaked into it from one of the mains.

STRIKING SWITCHMEN

Cause a Coal Famine in the Northern Part of Ohio.

Besides Throwing Four Thousand Other Men Out of Employment.

CLEVELAND, O., March 11.—The strike of the New York, Pennsylvania and Ohio switchmen was emphasized to-day by sixty road brakemen who joined therein. This takes in only the Mahoning Division of the line. One hundred and five railroad men are now out, but the stoppage of traffic has caused a coal famine, and many mills and factories along the route have been closed in consequence. Fully four thousand men are thrown out of employment by the action of one hundred and five. No damage to property has yet been done, and the idle men are orderly and not disposed to do anything rash. The strike was caused by a reduction from three to two brakemen on switching trains. YOUNGSTOWN, O., March 11.—The railroad strike is spreading. Freight trains between here and Cleveland on the Shattuck branch have been abandoned. No efforts are being made to move trains in either the N. Y., P. & O. or Pennsylvania yards, the men on both lines still standing firm. It is reported that unless a settlement is effected all the men on the main line will be called out. Hotels and boarding-house keepers were to-day waited on by a committee of railroad strikers and asked to neither board nor lodge scabs nor new men who may be employed. Some agreements were made.

FAREWELL TO PLYMOUTH.

Final Service Over the Old Church's Beloved Pastor.

BROOKLYN, March 11.—Plymouth Church was crowded almost to suffocation to-day by members of the dead Beecher's congregation and others who could gain entrance. The services began at 10:30. Dr. Hall's funeral address was a most touching and eloquent tribute to him he loved so well. There seemed at times not to be a dry eye in the vast audience. All afternoon yesterday the long line of people passed through the church to view the remains, and the rush was so great that it was found necessary to increase the force around the church doors. The throng was made up of almost all nationalities. As the day advanced the line of people extended until it reached Fulton street; then down one side of the next block and up the other, with another wing across Henry street. It was estimated that nearly twenty thousand people passed before the catafalque during the day. There were so many wreaths and bouquets left on the bier that a special place had to be made near the platform at the foot of the pulpit to receive them. Last night the Beecher residence was brilliantly lighted, and everything around the house was made as bright as possible. Mrs. Beecher had been in her late husband's room a great portion of the afternoon looking over his papers. It seems a delight to her to be near where her husband spent much of his time. The members of the family were dressed in bright clothing, and every thing around was made as light and cheerful as possible, in accordance with the often expressed wish of Mr. Beecher in case of his death.

RELIGION IN POLITICS.

Chicago Israelites Form the Nucleus of a National Movement.

CHICAGO, March 11.—What is probably the first denominational political body to see the light of day in this country has just been started in the Seventh Ward of this city under a charter granted by the Secretary of the State. It is called the Hebrew Political Club, and is composed exclusively of Hebrews in good standing in the local synagogues. It starts out with a membership of 135, and having no distinctive politics, will support such candidates as are favorably inclined toward the Jewish race. Similar clubs are to be organized in all the wards of the city where Hebrew residents are strong, and it is thought that eventually the organization will not only be strong enough to exercise an important influence in local politics, but also to be the nucleus of a National movement to the same end.

BERLIN, March 11.—The Septennate bill was read the third time in the Reichstag to-day and was passed without debate by a vote of 227 to 31. Eighty-four members abstained from voting. HAUNTED

By the Spirit of His Victim—The Frightful Vision That Appears to Unger in His Cell.

NEW YORK, March 13.—Edward Unger, who was sent to Sing Sing for life for the murder of August Bohle, is now in the hospital of the prison, a sufferer from nervous prostration. His physical strength before his trial was great, and his steadiness of nerve in court was surprising, but his stamina is all gone, and he has become a miserable cowering wreck. On the first morning in the prison he told a keeper that he had been visited during the night by his dismembered victim, who had proceeded to reconstruct himself in the terrified prisoner's presence. Of this dream he could not be dissuaded. He seemed to believe it was reality. Every night it came to him, and at the end of a week he was much broken down. In the hospital it has been the same with him, except when he is kept very soundly asleep under narcotic influence. He dreams that the mangled pieces of his friend are strewn about the room, where they lie while inanimate, as they did before he packed the body in the trunk and threw the head into the river. Then the fragments begin to quiver. Soon they move slowly toward each other, until they are in a heap. Next they adjust themselves into human form. But the head is missing. At length that, too, comes into the room, with its hair dripping with the water of the river in which it has lain. With a horrible smile on its face, it places itself on the shoulders of the figure and menaces the murderer. Unger shrieks out at this point, and the apparition vanishes from his imagination. All efforts have failed to relieve him of these visions, and the prison physician advises his removal to the State Asylum for Lunatic Criminals.

Deontologist Mott, of the Tenth Cavalry, Fatally Stabbed in an Altercation With an Indian.

LOS ANGELES, CAL., March 13.—General Miles yesterday received a telegram announcing the death of Lieutenant Seward Mott, of the Tenth Cavalry, at San Carlos Reservation, Arizona. Lieutenant Mott had been assisting Captain Pierce, the agent at the Reservation, in the division of lands. The other day a young Apache Chief, whose father was in the guard-house, quarreled with Lieutenant Mott over a division of land, and stabbed him several times. He died yesterday. The murderer escaped and is now with three renegades who went out to escape punishment for drunkenness, and are now being pursued by scouts. Mott graduated from West Point last year and got his commission in July. He was a native of New York.

THE FLEETING COOK.

A Little Story Which Throws Considerable Light on a Certain Class of Women.

Here is a story on a certain class of mistresses—a class that is not numerous, but is peculiar to the ranks of the "vulgar rich" who are so scorchingly described by Ouida. A lady comes a stranger to Buffalo, her husband an army officer, ordered here on special duty. She at once breaks into house-keeping and deems herself fortunate in securing a really good cook. One morning while reflecting upon her luck in finding such a kitchen treasure—and she is a stranger in a strange place—she sees a fine establishment—splendid sleigh, fine horses, swell coachman—drive up to her door. From the sleigh steps out a very handsome specimen of womanhood, elegantly costumed. Our army woman, suspecting that she is to be made the recipient of a little Buffalo welcome and hospitality, steps to the mirror, gives her bangs a little twist and prinks up hastily. She hears the door bell ring; soon after hears voices in the parlor. But there is no summons for her, and in five minutes, more or less, the superbly dressed visitor aforesaid leaves the house and drives off. The second girl being asked for an explanation, replies that the lady asked to see the cook, and that functionary soon informs her army mistress that she has had an offer of much higher wages if she will leave at once, and that the offer is too tempting to refuse. Protest is ineffectual, and wondering whether that is the way of doing things in Buffalo, the discomfited housekeeper submits to the result and goes out to hunt after another cook. A few days pass, and the sleigh, the coachman and same elegant specimen of the feminine gender again come up to the door, and this time the lady of the house is certainly asked for. With some reluctance and considerable smothered indignation she goes down, but is soon disabused of any notion that the "lady" is going to "make a call." She briefly explains her errand—admits that she is the woman who induced the cook to leave, and complains that she is in a "really awkward position," for a "splendid cook" who used to live with her wants to come back, and she, of course, feels under obligations to get the other cook a place, seeing that she urged her to leave. She, therefore, asks our army woman if she is willing to take back her original cook "as a personal favor." Beg pardon, reader. Did you say "Well, I swear!" That is just what we said when we heard the story, and it is true, every word of it.—*Buffalo Express*

If Kentucky papers would stop booming other States and turn their undivided attention to inducing capital to seek investment here the old State of Kentucky would soon pull out of the ruts.—West Liberty Gem.

We advise our Democratic contemporaries to quit throwing mud at Democratic candidates. Berry, Holt, Kines, Harris and Buckner are as good Democrats and as good men as the editors. Whoever may be nominated must receive the support of the entire Democratic party. Let harmony prevail.—Mt. Sterling Sentinel-Democrat.

It is to be hoped that the Fifth Congress will pass a River and Harbor Bill that an honest President can conscientiously sign. The great waterways of the country ought to be improved, and liberal appropriations should be made for that purpose, but the River and Harbor Bills of late years are only designed to keep certain people in Congress and pension them upon the people.—Louisville Times.

The great failure of the Congress was in its neglect or refusal to reform the tariff and to reduce the

war taxes that are still pouring a surplus of over \$100,000,000 into the Treasury in excess of the needs of the Government economically and legitimately administered. It is this surplus that has caused the extraordinary raids upon the Treasury made during the past four years. And it was to prevent this surplus by a reduction of taxation, more than for any other purpose, that the late Congress was elected.—New York World.

Plain as the fact is that the Government is collecting a vast sum not needed, and that this collection is working such immense injuries to the country, yet it is allowed by Congress to go on. Kentucky at the last election, sent three members to aid in keeping it up. When will it end? Let us hope for reform from the next Congress, and in the meantime thank heaven for having a firm President, who will guard well the people's interest when Congress fails to do it.—Elizabethton News.

Senator John D. Harris, of Madison county, was in town Friday looking after his fences connected with his race for Governor. The Senator has a number of warm friends in this county and his visit here has added numerous others to the list. He is strictly a business man, his entire interests being in the State, consequently should he receive the nomination and be elected Governor, which undoubtedly would be, his whole object would be to advance the material interests of the State and place her on a higher plane than she now is. We give it as our honest prediction that when the county of Bracken is called at the Louisville Convention, which meets May 4th, her nine votes will be cast for Senator Harris.—Bracken Democrat.

Senator John D. Harris returned to this city, on Sunday night last, after making a tour of the Sandy Valley counties, and we are putting it mild when we say that the Senator made the best impression upon the people of this section that has been made by any stranger for many years. Senator Harris stands shoulder to shoulder with the people of Eastern Kentucky and all his efforts have been for the development of our resources. If our undeveloped wealth can be utilized Eastern Kentucky would certainly become the Empire of the South. Harris, as Governor, would do much to bring this about—all in his power, and as he is an indefatigable worker in our interests he could accomplish wonderful results. In this section the fight is over, and if Eastern Kentucky had the privilege of naming the Democratic nominee for Governor, it would be John D. Harris.—Cattlettsburg Leader.

Kentucky's First "Arbor Day."

The proclamation of Governor Knott, calling attention to Arbor Day, April 2nd, as provided by the Legislature, should receive a careful and thoughtful reading. The observance of the day will not fail to grow into great popularity. Its work involves so much that is patriotic, ornamental and highly useful that it cannot possibly fail of being accorded great respect and general observance. The streets, public grounds, country roads, and other places will be made beautiful and charming with looks and utility from this lovely custom of annual tree planting. Every citizen of the State and every neighborhood should give this uniform day respectful heed. Cemeteries, school and church grounds, commons, lanes and private property should have the benefit of a day's ornamentation that shall grow into a memorial for those whose hands shall do this commendable good for coming generations. There is everything in this beautiful and useful custom to invite co-operation and pride, and organization should pave the way for its celebration. Let every community organize for the observance of the day, and let the sun go down on the 2d of April on thousands of planted trees, that will make glad the hearts of those engaging in the work, as well as bring comfort and beauty to those who are to follow after, in the days when to-day's work shall spread into verdure and fragrance that shall be a

perpetual memorial of its patriotic workers. The good women should take the day's observance in hand and arrange for its complete success. The work, distributed as it would be, to all the citizens of a community, would be a mere holiday picnic. One tree transplanted to some needed place by every adult would make waste places bloom with beauty, beside proving a living honor to the generation to whose hands the work is traced.—Capital.

As the trade dollars are now just as valuable as the standard dollar for all the purposes of trade, business men will receive them of course as will banks and other financial institutions; but banks and financial institutions will send them to the Treasury for redemption and not pay them out again. In short, the trade dollar is now the legal representative of a standard silver dollar, and will continue to be so until the 4th day of September next. It will, therefore, command the value of a dollar in all the channels of trade during that period, after which it will be only silver bullion, worth a little over eighty cents. The act of Congress providing for the redemption of the trade dollars, became a law at the close of the last Congress without the signature of the President. Under its provisions all trade dollars not stamped or defaced, will be redeemed by the Treasurer of the United States at Washington, or by any Assistant Treasurer of the United States, dollar for dollar, in the legal tender silver dollar of the country, at any time within six months from the passage of the act, which became a law on the 4th of March. It is estimated that there are ten millions of trade dollars held by the people, all of which will of course come in for redemption. Many millions of them have been absorbed in the China trade, for which they were specially coined, and will not be returned for exchange.—Capital.

A Genial Restorative.
Hostetter's Stomach Bitters are emphatically a genial restorative. The changes which this great botanical remedy produces in the disordered organization are always agreeable, though surely progressive, never abrupt and violent. On this account it is admirably adapted to persons of delicate constitution and weak nerves, to whom the powerful mineral drugs are positively injurious. That it initiates those processes which result in the re-establishment of healthful vigor is conspicuously shown in cases where it is taken to overcome that fruitless cause of debility, indigestion, coupled, as it usually is, with biliousness and constipation. Thorough digestion, regular evacuation and abundant secretion, are results which promptly and invariably attend its systematic use. It is, besides, the best protective against malaria, and a first-rate diuretic.

Captured.

Samp and Elijah Smith in jail here, charged with the murder of Steve Hammond.

Samp and Elijah Smith, two of the perpetrators of the crime committed on Cat's Fork in this county last week were captured a few days ago near Campton, Wolfe county, and brought to this place yesterday and lodged in jail. There are three others still at large who were implicated in the crime.

The particulars as we gave them last week were not altogether correct, as we have since learned. According to last reports the fight occurred in Squire Atkins' yard. One of the five murderers struck Hammond on the head with a rock, crushing his skull. Another attacked him with a knife and almost severed his body in two, disclosing his heart. Hammond being dead, the murderers directed their attention to Mrs. Hammond and her son and daughter. Mrs. Hammond now suffers from three pistol shot wounds, the daughter is badly wounded by a knife, and young Hammond is crazed from the effects of an unmerciful beating on the head. It is said that Miss Hammond twice knocked down her assailant with her fist, while he was firing at her. Several balls are said to have passed through her hair.

Rev. Black, of Catlettsburg, who has been assisting for the past two weeks in the protracted meeting at the M. E. Church South, went home Saturday, but came back Tuesday.

Mothers go to J. A. Hughes and see those beautiful suits for boys from 4 years old up. Nicest and best line of Clothing for Men and Boys ever brought to Louisa.

The monotony of our office was most pleasantly broken last Saturday afternoon by a call from Misses Emma Garred and Georgia Johnson, accompanied by Mr. Lee Garred.

We are glad those Knights of Labor, the Bees never strike for higher wages, but are always on hand to get in their work among the flowers. As a consequence we have plenty of honey, which is largely used in manufacturing Cousen's Honey of Tar, the best remedy in the world for coughs, colds and diseases of the throat and lungs.

If you want a nice suit made to order go to J. A. Hughes. He has 300 styles to select from and he guarantees you a perfect fit at 15 to 20 per cent less than traveling salesman's prices, as he has no railroad or hotel bills to pay.

It is worse than folly to worry ourselves with what we cannot remedy, but silly to endure what can be cured by a simple preparation. Tabler's Buckeye Pile Ointment is pronounced by all who have used it, the best remedy ever offered the sufferer with piles. Do not suffer needlessly but avail yourself of the remedy and be cured.

FARMER'S BOYS AND GIRLS!—Do you want to know what you can get for a few hours' work? Write by return mail to Telegram Publishing Co., 19 West Sixth Street, Cincinnati, Ohio.

To sufferers with colds or deep-seated coughs, the days are long and dreary. Various remedies are grasped with the energy of despair, but not until they try Cousen's Honey of Tar, can they be sure of a complete cure for a cough; cold or diseases of throat and lungs. This preparation receives unstinted praise because it is an effectual cough remedy.

James Sloan, who lived near this place, was killed near Richardson last week. He was assisting in the work of driving piles for a trestle on the Chattahoochee extension, and was struck in the side by some part of the machinery. He only lived a few hours.

WILD BILL.

The Louisa Library already contains a large number of books by the best authors, but the number is being continually increased. We do not believe any person denies that the benefits derived from reading wholesome literature are very great, or that a good library is something much to be desired by any town. Yet, very few of the people of Louisa manifest any substantial interest in the welfare of the Library already established. Go to Milt Burns' and examine the books already on hand, and if you think the collection is not what it should be, do not let that prevent you giving a dollar for membership and paying ten cents a month dues; you will then be entitled to a voice in the selection of works. Every cent which is paid as initiation fee and dues goes toward the purchase of new books. If you are hesitating on account of what the access to this valuable collection of books will cost you, we do not doubt that if you will make this fact known the members will have a meeting for the purpose of giving you reduced rates of initiation.

A man who has practiced medicine for 40 years ought to know salt from sugar; read what he says:

TOLEDO, O., Jan. 10, '87.
Messrs. F. J. Cheney & Co.—Gentlemen:—I have been in the general practice of medicine for most 40 years, and would say that in all my practice and experience have never seen a preparation that I could prescribe with as much confidence of success as I can Hall's CATARRH CURE, manufactured by you. Have prescribed it a great many times and its effect is wonderful, and would say in conclusion that I have yet to find a case of Catarrh that it would not cure, if they would take it according to directions.

Yours truly,

"Be thou chaste as ice and pure as snow, thou shalt not escape using unhealthy compounds in your food," was a true maxim, until J. Monroe Taylor's Gold Medal Soda and Saleratus came to our relief. Try it, and you will say with us, that perfection has been obtained, and the inventor has immortalized his name forever. Most of the Merchants have it.

AN END TO BONE SCRAPING.
Edward Shephard, of Hartsburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well. Electric Bitters are sold at 50 cents, and Bucklen's Arnica Salve at 25c. per box by R. F. Vinson."

WHAT TRUE MERIT WILL DO.
The unprecedented sale of Boschee's German Syrup within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of coughs, colds, and the severest lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a cough and leave the disease still in the system, but on the contrary, removes the cause of the trouble, heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance, will save doctor's bills and a long and serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price 75 cts., large bottles.

GOOD RESULTS IN EVERY CASE.
D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes, that he was seriously afflicted with severe cold, that settled on his lungs; he tried many remedies without benefit. Being induced to try Dr. King's New Discovery for consumption, did so and was entirely cured by use of a few bottles.
